AIR 1 serves the Laramie community (and the world) with continuous music and ministry. It is nice to have a radio station committed to helping and uniting others through Christ. This is the first time I have been exposed to a Christian station geared to young people (music format) and I love it! There is no other station that I have found like it. There are not many stations in this area, so the positive content is refreshing, it is educational and uplifting. Please do not remove this station, it serves to unite people of the world in one commonality, Jesus Christ. It is hip, cool, and provides a service other stations can not, setting a positive example for serving others and Christ.
